Cruelty is a quality too often brought into exercise by professional colt trainers or rather "breakers," for this term is appropriate to many who engage in the business, but colts subjected by more brute force never make good, reliable horses.

WEDNESDAY,

Nonconsenting a Surgical Operation—Love's Mother Attempts to Take a Pair of Shovels From Her Child.

PARENTS BE CAREFUL.

Domestic accidents are common to women, and some of them are very serious. Mrs. Warner, South Boulevard, Vester county, N. Y., some years ago attempted to take from her child a pair of shovels with which it was playing. A slight struggle ensued in which the point of the shovel entered Mrs. Warner's eye, and she died in a few days. A family physician said what he could, but intense painful inflammation arose, which, by symptoms threatened the loss of the other eye. Total blindness to a woman having the care of a household is an irretrievable calamity. In this strain Mrs. W. applied

to the well-known and skillful surgeon, Dr. J. B. Kennedy, who performed the operation by a very successful operation, saving me from all danger of further harm to the sight of other eyes. But, owing to pain and mental distress, I was unable to see him until after several days.

To do this work the Doctor prescribed "Kennedy's Favorite Remedy," which sustained his reputation as a great eye specialist.

Dr. Kennedy's "Favorite Remedy" removes all purities from the blood, regulates the Liver and cleanses the system, making it healthy and strong. It is weak-ness peculiar to females. It is sold in small bottles by our druggists at ONE DOLLAR a bottle.
